

Scope and Sequence of our Books

Our books offer step by step progression starting from the simple to the more complex parts of the alphabetic code. Our [Beginner Readers](#) start by introducing just a few sounds and letters at a time (Stage 1 introduces only five sounds: s, a, t, i, m), so that the reader can experience success from the outset.

All our books have cumulative progression which allows for previous learning to be included as the reader progresses. This ensures what has been learned is included and practiced along the way.

Each of our [Catch-Up](#) series has a different starting point and educators should assess the student to determine where any intervention should begin. Parallel series offer further practice for students. Our workbooks offer comprehensive pre-reading and post-reading activities to ensure the student has sufficient practice and rehearsal to embed learning.

Every book has the target phonics listed on it so the teacher can identify this with ease. A 'Reading Practice' page in our Catch-Up series help prepare students for a successful reading experience. As the students learn to decode more and more words, they learn new vocabulary. This is listed and explained on the Vocabulary Page.

Beginner Readers			
Series	Teaching Focus	Who is it aimed at?	Workbook
Tell a Story 	Develop language and communication	Pre-K and K children with language difficulties	No
Dandelion Launchers Stages 1-7 	Gradual introduction of the sounds/letters of the alphabet. Reading CVC words within decodable stories.
