

# Hi I'm Kit!

## Kit the Library Kitten

When Kit first came to the library, they were worried whether it was the place for them. It was so big and everyone seemed so smart! Over time, Kit learned that the library is a place for kindness and sharing stories. Now they wander around hoping to find anyone and everyone who will read to them. They love both fiction and non-fiction and particularly like hearing stories from people who are practicing and learning how to read. Will you read to Kit?

## Creator's Note

*Who doesn't love a library kitten to snuggle up and read to?* The Dyslexic Positive Team decided we needed a mascot to represent our highly positive approach to neurodiversity in public libraries. Kit is made of our brand colors, but you can make a Kit to fit your library with your own branding using our pattern. Their tail is created with stitches that make it a perfect sensory fidget for anxious hands. Make your own Kit today!
